

Zpagetti cushion

A comfy and big cushion made of Zpagetti. I used three different colours but you can use 1 or more if you like. You could also use leftover material from t-shirts to make the yarn yourself. More info about Zpagetti: www.hooked.nl

Materials

- Zpagetti, about 3 to 4 kilos
- Cushion or filling for the inside
- Hoog 12 mm

Cushion or filling

You can use a bought cushion. I used a square cushion that's flexible to push into a round shape. You can also make your own cushion with cotton fabric and filling.

Tutorial

* ... * repeat from * to *
ch chain
sl slip stitch
hdc half double crochet
st stitch

First side

4 ch, close with sl

1: 12 hdc in ring
